

A seminar focused on the project **"Greening of Innovative Production Process of Cutting and Perforating of Footwear in Inkop International"**, supported by the Norwegian Financial Mechanism 2014-2021 within the Business Development and Innovation Croatia Program, took place at Inkop International HQ December 13, 2023.

Representatives and business partners of Inkop International d.o.o. participated in the seminar, which also included a presentation of the new cutting system and the current project status. Attendees had the opportunity to observe the distinctions between the old and the new, improved workflow during the seminar.

Mr. Kristijan Domagoj Ćurković, the project manager, delivered a presentation to seminar participants covering Inkop International's activities, long-term goals, strategy, legal environment, and key project details. He reiterated that the project's primary objective is to increase the company's competitiveness by implementing modern technologies.
